**RE: Maryland International Fuel Tax Association, Inc. (IFTA)
Requirements Waiver Final Extension**

Dear Executive Director/CEO Martorana,

I write to inform you that I am again extending the temporary waiver of certain IFTA requirements in Maryland to further mitigate the economic impact of the Francis Scott Key Bridge collapse. The waiver, which was initially authorized through May 31, 2024, at 11:59 pm, then extended to July 6, 2024, will now remain in effect until July 15, 2024, at 11:59 pm. Maryland will continue to waive IFTA licensing and decal requirements for motor carriers hauling freight to or from a seaport.

As a reminder, the Office also granted a waiver of penalties for IFTA licensees who experienced difficulty filing their quarterly IFTA Tax Returns by the April 30, 2024, due date. IFTA licensees that are affected by this waiver must have filed their first quarter returns no later than June 30, 2024 to be granted this relief.

Thank you for your support of our state and our motor carriers over the past few months. We look forward to moving forward successfully with your help.

My best,

Brooke E. Lierman

cc: Van Howeth, Director, Field Enforcement Bureau
