MEMORANDUM

To: IFTA Commissioners

From: Julian W. Fitzgerald, Sr., Director
North Carolina Motor Fuels Tax Division

Subject: 2007 IFTA Decals

The State of North Carolina is currently experiencing problems with the quality of the North Carolina issued 2007 IFTA decals. It has been determined that some of the 2007 IFTA decals received from the vendor do not satisfactorily adhere to the vehicles once they have been placed on them. Also, the decals do not meet the security specifications if removed voluntarily or otherwise.

We recognize this decal quality problem may cause IFTA carriers and IFTA jurisdictions some level of inconvenience or misunderstanding with respect to IFTA compliance. Please be advised that North Carolina carriers that experience related problems will be encouraged to continue to operate with their 2006 North Carolina IFTA decals throughout the IFTA credential grace period.

We are seeking the cooperation and understanding of IFTA jurisdictions while we work to correct this problem. We will advise when this situation has been resolved.

You may direct inquiries regarding this problem to:
