INTRODUCING IFTA'S NEW AUDITOR TRAINING!

IFTA, Inc. is pleased to announce that the TRUedu New Auditor Training Series has officially been unveiled. This series of comprehensive and interactive sessions will be rolled out over several months and will include everything a new auditor needs to know as they begin their journey of auditing motor carriers for this unique Association tasked with the administration, collection, and enforcement of motor fuel use taxes. This course has been long anticipated by the IFTA auditing community, and it couldn't be rolled out at a more appropriate time. With many jurisdictions facing the loss of institutional knowledge through retirements both imminent and in the near future, this innovative course will help you get your young and even not so young auditors up to speed so that your jurisdiction can continue to comply with the auditing requirements of the Agreement.

This series will appeal to auditors and audit managers of all skill levels. At the successful conclusion of the entire series, a Certificate of Completion will be available for download. Our first session is named ***New Auditor Training-The Motor Carrier Industry***. The motor carrier industry is vast and complex. Learn about the types of carriers and operations, the vehicles, and even the lingo you'll hear throughout your career in auditing for IFTA. Check the IFTA, Inc. website frequently for updates on this new training series. Remember, TRUedu is IFTA's home for online learning. As always, please reach out to us through LMShelp@iftach.org with any questions or to seek assistance on using TRUedu.

Sincerely,

Rick LaRose
